SYSTEMS ONCOLOGY 2017

INTEGRATED APPROACHES TO UNDERSTAND AND CURE CANCER

10th-12th March, Hotel Holiday Inn, Cochin

Dear Friends and Colleagues,

A unique conference is being organized to promote comprehensive and integrated approaches to understand and cure cancer. The goal of the conference is to bring together Oncologists, Cancer Researchers and Allied Health professionals to get a 360 degree perspective on the current state of Oncology.

Sessions will cover topics such as **GI Oncology, Lung Oncology, Immuno-Oncology, Carcinomics, Cancer-nanomedicine, Pediatric & Hemato-oncology and Oncology Nursing.** Informative sessions on rare cancers, DNA repair and cancer, Cancer stem cells, Molecular Medicine and Cancer Nanomedicine translational challenges will be the highlight of this conference.

Special brainstorming sessions on **Translating bench level scientific discoveries into clinical practice, Panel discussions and Round table meetings** of principle investigators with Industry leaders and drug-regulators (US-FDA, NCI, USA, DCGI) are planned. Special focus on global cancer prevention strategies will be highlighted.

CME credit will be provided for all medical graduates and post-graduates. Several Awards including **Best Poster Award, Promising Young Researcher Award and Promising Young Oncologist Award** will be provided. Visit to nanomedicine GMP/GLP facility will be organized.

We invite Clinicians from all branches of Oncology, Paediatricians, Researchers from Oncology, Nanomedicine, Diagnostics, Immuno-oncology, residents and onco-nursing community to attend the conference and share their knowledge.

For Registration and other details, please contact us at sysonc2017@gmail.com.

Target Audience

- Young scientists and clinicians who are just beginning a career in any area of cancer research.
- Seasoned researchers and clinicians
- Oncologists from private practice and academic institutions
- Public health professionals, policy makers & influencers
- Oncology nurses and nurse trainees
- Medical and graduate students
- Undergraduate and postgraduate students from medical, dental and allied health sciences.
- Residents, Fellows and post-doctoral scientists
- Biotechnology and pharmaceutical industry professionals
- Anyone engaged in the discovery and development of therapeutics and diagnostics in the area of oncology
- Anyone who is interested to learn about the triumphs and challenges in cancer research

Goal of the Conference

- To share the research findings from experts as well as budding scientists and clinicians.
- To catalyze scientific discussions that could initiate paradigm shifting experiments.
- Help establish long lasting scientific collaborations between individual scientists and between institutions.
- To stimulate young researchers and clinicians to identify problems that affect the lives of people living with cancer.
